PROFESSIONAL SUMMARY

Employee of the Year 2025 and **5/5 rated** Full-Stack Developer with 3+ years of experience building and deploying scalable **web and mobile applications** across the full software development lifecycle. Specialized in **React.js, React Native, TypeScript, and Node.js**, with strong expertise in **RESTful API integration, third-party library management, unit testing**, and cross-functional collaboration. Proven track record delivering enterprise-grade multi-portal systems serving 5,000+ users, with hands-on experience in **CI/CD automation, Docker, Azure**, and Agile/Scrum environments. Passionate about continuous learning and building reliable, high-performance applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, JSON

Frontend & Mobile: React.js, React Native, TypeScript, Bootstrap, Material Design, Responsive UI, Component Architecture, Webpack

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Microservices, Third-Party API Integration

Testing: Jest (Unit Testing), Edge Case Handling, Manual QA

Cloud & DevOps: Microsoft Azure, AWS (S3, Lambda), Docker, GitHub Actions, Azure Pipelines, Azure Monitor, Application Insights, CI/CD Pipelines, Linux

Databases: MySQL, MSSQL, Azure SQL

Tools & Methodologies: Git, SVN, GitHub, NPM, Azure DevOps, Agile/Scrum, Software Configuration Management

PROFESSIONAL EXPERIENCE

Full Stack Developer

Oct 2024 – Present

Zeta-V Technology Solutions, Pune

- Developed and maintained scalable **React.js and React Native** applications serving **5,000+ users**, improving page load time by **35%** through code splitting and lazy loading.
- Integrated **RESTful APIs and JSON** data across web and mobile platforms, including third-party payment, mapping, and notification services.
- Built **Node.js/Express** backend microservices handling high-volume API requests across multi-portal enterprise workflows.
- Performed **unit testing using Jest**, handling edge cases and usability considerations to ensure code reliability across all modules.
- Containerized applications using **Docker** and automated deployments via **Azure Pipelines and GitHub Actions**, reducing deployment time by 40%.
- Implemented **CI/CD workflows** and production monitoring using Azure Monitor and Application Insights, improving release reliability.
- Collaborated in **Agile/Scrum** sprint cycles with cross-functional teams, consistently delivering features on schedule.
- Managed **software configuration** using Git and SVN, maintaining clean version control across multiple concurrent projects.

Full Stack Developer

Sep 2023 – Oct 2024

Lissom Technologies Pvt. Ltd., Pune

- Built **HRMS and CRM** platforms using React.js, Node.js, and SQL databases, serving **200+ internal users** across departments.
- Designed Admin, Vendor, and User portals with granular **role-based access control (RBAC)**, reducing support tickets by 30%.
- Integrated **third-party libraries and REST APIs**, streamlining vendor and employee data management workflows.
- Optimized SQL queries and component rendering, improving application response time by **25%** across Chrome, Firefox, and Edge.

Frontend Developer

Nov 2022 – Sep 2023

Nebula Technology, Pune

- Developed **10+ responsive user interfaces** using HTML5, CSS3, and JavaScript, reducing mobile bounce rate by 20%.
- Enhanced **UI accessibility** (WCAG standards) and cross-browser performance, achieving consistent rendering across all modern browsers.
- Collaborated with backend teams to **integrate RESTful APIs**, improving overall page performance scores by 15%.

KEY PROJECTS

Invoice Management System (Web + Mobile)

2024 – Present  GitHub

- Built a full-stack **cross-platform Invoice Management application** for web and mobile (React Native) supporting end-to-end invoice creation, management, and tracking.
- Implemented **multi-currency support** (INR, HKD, USD, CNY) with dynamic per-country rate lookups from a live `zv_item_rates` database table — eliminating manual currency conversion errors.
- Designed a **professional invoice format engine** with company address selection, itemized billing, tax calculations, currency formatting, and branded PDF invoice generation.
- Built **server-side paginated customer search** with debounced input and skeleton loading states for smooth UX on both mobile and web.
- Integrated **bank detail selection, company profile management**, and role-based access for Admin and Manager portals.
- Optimized backend with **batch IN() queries and Promise.all** to eliminate N+1 query patterns, significantly improving API response times.
- *Tech Stack: React.js, React Native, TypeScript, Node.js, Express, MySQL, Azure, JWT, REST APIs*

Enterprise Order Management System (Web + Mobile)

2024 – Present  GitHub

- Architected a **multi-portal enterprise platform** (Admin, Customer, Manager, Vendor) using React.js, TypeScript, and Node.js, supporting real-time order tracking and revenue analytics.
- Built a **cross-platform React Native mobile app** with product browsing, cart management, payments, and invoicing — deployed to both iOS and Android.
- Designed **RESTful microservices** handling orders, payments, and vendor workflows with JWT authentication and RBAC security.
- Deployed fully containerized application on **Azure and Linux** using CI/CD pipelines, achieving 99.9% uptime.
- *Tech Stack: React.js, TypeScript, React Native, Node.js, Express, Azure, MySQL, Docker*

Doctor Appointment System

2024  GitHub

- Built a full-stack appointment booking platform using **React.js, Node.js, and MSSQL** with real-time slot availability and email notifications.
- Implemented **JWT authentication and RBAC** for Patients, Doctors, and Admins, enabling 50+ appointments per day.
- *Tech Stack: React.js, Node.js, Express, MSSQL, JWT*

AWARDS & RECOGNITION

Employee of the Year 2025

Zeta-V Technology Solutions, Pune

Highest organisational recognition for outstanding performance, technical leadership, and consistent delivery across enterprise projects. Selected from the entire engineering team based on impact, innovation, and ownership.

Performance Rating: 5 / 5

FY 2025–26 Annual Appraisal

Maximum possible rating across all dimensions — technical excellence, delivery, collaboration, and business impact.

KEY ACHIEVEMENTS

- **Employee of the Year 2025** — highest organisational award at Zeta-V Technology Solutions, selected from the entire engineering team.
- Received **5/5 performance rating** (maximum) in FY 2025–26 annual appraisal across all evaluation dimensions.
- Reduced page load time by **35%** through React performance optimizations — code splitting, lazy loading, and memoization.
- Cut deployment time by **40%** via end-to-end CI/CD automation with Azure Pipelines and GitHub Actions.
- Delivered production-grade **multi-portal enterprise application** supporting 4 user roles and 5,000+ users.
- Built and deployed **scalable REST APIs** on Microsoft Azure supporting real-time business-critical workflows.

EDUCATION

B.Tech in Computer Engineering

Arvind Gavali College of Engineering, Satara

2018 – 2021

GPA: 8.02 / 10

Diploma in Computer Technology

Karmaveer Bhaurao Patil Polytechnic, Satara

2015 – 2018

68%

LANGUAGES

English — Marathi — Hindi
