PROFESSIONAL SUMMARY

Employee of the Year 2025 and **5/5 rated** Full-Stack Developer & DevOps Engineer with 3+ years of experience architecting and deploying scalable web and mobile applications serving 5,000+ users. Specialized in **React.js**, **TypeScript**, **Node.js**, and cloud-native deployments on **Microsoft Azure**. Proven track record of delivering multi-portal enterprise systems, reducing page load times by 35%, and implementing secure JWT-based authentication. Hands-on expertise in **CI/CD automation**, **Docker containerization**, **Agile/Scrum**, Azure Monitor & Application Insights, and end-to-end product ownership — consistently shipping high-quality features on schedule.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, React Native, TypeScript, Bootstrap, Responsive UI, Component Architecture, Webpack

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Microservices

Cloud & DevOps: Microsoft Azure, AWS (S3, Lambda), Docker, GitHub Actions, Azure Pipelines, Azure Monitor, Application Insights, CI/CD Pipelines, Linux

Databases: MySQL, MSSQL, Azure SQL

Tools & Methodologies: Git, GitHub, NPM, Azure DevOps, Agile/Scrum, Jest (Unit Testing)

PROFESSIONAL EXPERIENCE

Full Stack Developer

Oct 2024 – Present

Zeta-V Technology Solutions, Pune

- Developed scalable **React.js** and **TypeScript** applications serving **5,000+ users**, improving page load time by **35%** through code splitting and lazy loading.
- Integrated secure REST APIs with **JWT authentication**, reducing unauthorized access incidents by eliminating unprotected endpoints.
- Built **Node.js/Express** backend microservices handling high-volume API requests across multi-portal enterprise workflows.
- Containerized applications using **Docker** and automated deployments via **Azure Pipelines** and **GitHub Actions**, reducing deployment time by 40%.
- Implemented CI/CD workflows and production monitoring using **Azure Monitor** and **Application Insights**, increasing release reliability and system observability.
- Delivered features consistently on schedule through **Agile/Scrum** sprint cycles with cross-functional teams.

Full Stack Developer

Sep 2023 – Oct 2024

Lissom Technologies Pvt. Ltd., Pune

- Built **HRMS** and **CRM** platforms using **React.js**, **Node.js**, and **SQL** databases, serving **200+ internal users** across departments.
- Designed **Admin, Vendor, and User portals** with granular role-based access control (RBAC), reducing support tickets by 30%.
- Optimized SQL queries and component rendering, improving application response time by **25%** and achieving cross-browser compatibility across Chrome, Firefox, and Edge.
- Integrated **REST APIs** with secure authentication workflows, streamlining vendor and employee data management.

Frontend Developer

Nov 2022 – Sep 2023

Nebula Technology, Pune

- Developed **10+ responsive user interfaces** using HTML5, CSS3, and JavaScript, reducing mobile bounce rate by 20%.
- Enhanced **UI accessibility** (WCAG standards) and performance, achieving consistent rendering across all modern browsers.
- Collaborated with backend teams to integrate APIs and improve overall page performance scores by **15%**.

KEY PROJECTS

Enterprise Order Management System (Web + Mobile)

2024 – Present  GitHub

- Architected a **multi-portal enterprise platform** (Admin, Customer, Manager, Vendor) using **React.js**, **TypeScript**, and **Node.js**, supporting real-time order tracking and revenue analytics.
- Built a cross-platform **React Native** mobile app with product browsing, cart management, payments, and invoicing — deployed to both iOS and Android.
- Designed **RESTful microservices** handling orders, payments, and vendor workflows with JWT authentication and RBAC security.

- Deployed fully containerized application on **Azure** and Linux using **CI/CD pipelines**, achieving 99.9% uptime.
- *Tech Stack: React.js, TypeScript, React Native, Node.js, Express, Azure, MySQL, Docker*

Doctor Appointment System2024 GitHub

- Built a full-stack appointment booking platform using **React.js**, **Node.js**, and **MSSQL** with real-time slot availability and email notifications.
- Implemented **JWT authentication** and role-based access control for Patients, Doctors, and Admins.
- Designed an intuitive dashboard enabling doctors to manage 50+ appointments per day efficiently.
- *Tech Stack: React.js, Node.js, Express, MSSQL, JWT*

KEY ACHIEVEMENTS

- **Employee of the Year 2025** at Zeta-V Technology Solutions — highest organizational award, selected from the entire engineering team.
- Received **5/5 performance rating** (maximum) in FY 2025–26 annual appraisal across all evaluation dimensions.
- Reduced page load time by **35%** through React performance optimizations (code splitting, lazy loading, memoization).
- Cut deployment time by **40%** by implementing end-to-end **CI/CD automation** with Azure Pipelines and GitHub Actions.
- Delivered a production-grade **multi-portal enterprise application** supporting 4 user roles and 5,000+ users.
- Built and deployed **scalable REST APIs** on Microsoft Azure supporting real-time business-critical workflows.

AWARDS & RECOGNITION

	Employee of the Year 2025Zeta-V Technology Solutions, Pune Awarded the highest organizational recognition for outstanding performance, technical leadership, and consistent delivery of enterprise-grade solutions. Selected from the entire engineering team based on impact, innovation, and ownership.
	Performance Rating: 5 / 5FY 2025–26 Annual Appraisal Received the maximum possible rating across all performance dimensions — technical excellence, delivery, collaboration, and business impact.

EDUCATION

B.Tech in Computer Engineering2018 – 2021 Arvind Gavali College of Engineering, Satara GPA: 8.02 / 10
Diploma in Computer Technology2015 – 2018 Karmaveer Bhaurao Patil Polytechnic, Satara 68%
